Profile

I am a Web Developer with experience in both web and mobile development, currently focusing on front-end technologies like React, Vue.js, and JavaScript. I am passionate about creating seamless user experiences and responsive designs and enjoy working in collaborative team environments. I am committed to continuous learning and enjoy exploring new technologies to stay current in the ever-evolving development field.

Education

Mogok Foundation   **(Aug 2019 - Apr 2022)**
Professional Programming Class

- Basic Programming with Java.
- Fundamental web development with HTML, CSS, JavaScript.
- Mobile app development with Dart and Flutter.

Experience

Varoon Valley Ltd   **(May 2023 - May 2024)**
Full-stack Developer

- Developed several web applications using React and TypeScript for the front-end and Laravel for the back-end.
- Collaborated with cross-functional teams on full project lifecycles, from research and planning to UI/UX design and database structuring.
- Contributed to creating Varoon Valley's portfolio site, improving service presentation and customer engagement.
- Contributed to the development of OMNI Zae, a POS system designed to streamline retail operations.
- Collaborated on an AI training project, enabled by our founder's connections in the USA, to enhance user prompt responses and improve grammatical accuracy.

Unity Power Technology Co.,Ltd   **(Oct 2022 - Feb 2023)**
Front-end Developer

- Developed responsive and maintainable web applications using Vue.js and JavaScript.
- Collaborated closely with team members, designers, and project managers to ensure development aligned with business goals and met user expectations.

Tastysoft Software Co.,Ltd   **(May 2022 - Sep 2022)**
Junior Front-end Developer

- Developed and deployed multiple mobile applications using Flutter.
- Successfully launched Doctor Link (version 1.0) for both Android and iOS, enabling seamless communication and job information sharing among hospitals, clinics, and doctors.
- Attended daily meetings at 9:00 AM to discuss workflows and receive guidance from senior developers for task allocation.
- Worked on projects like Connect GRX, designed for professional taxi drivers, and Connect 365, a multipurpose mobile application for time tracking, collaboration, productivity, and e-learning for employees, members, and organizations.
